RMEI General Assembly
Barcelona, 12th-14th July 2017
2009

- **April, 2009:** **RMEI General Assembly** (Rome and Civitavecchia, 21st-22nd) – Port Authority. Themes: Mediterranean mobility and trasportation; responsability of territorial authorities on sustanable development promotion.

- **July, 2009:** **Signature of the Protocol** between Civitavecchia Municipality and RMEI (1° July, Forte Michelangelo, Civitavecchia)

---

**Art. 2 - Municipality of Civitavecchia’s obligations:**
- to make available to RMEI the structures, for office use, necessary for the operation of the Association;
- to encourage the use of the Forte Michelangelo for scientific and cultural events (lessons, courses, exhibitions and conferences);
- to support logistically the research projects carried out by the Association that affect the territory;
- to participate in partnership with RMEI Association on projects for the use of Community funds.

**Art. 3 - Association’s obligations:**
- to enter the Municipality of Civitavecchia in the initiatives of exchanges between students and teachers organized by the Association;
- to organize on the territory of Civitavecchia cultural and scientific initiatives that promote the interest of student and teacher population;
- to locate research projects relating to the Mediterranean environment, in particular in the areas of safety, environmental protection and health, related to energy production and maritime traffic, as well as to sea and coastal activities.

Program

Thursday, April 12m 2012

18:00 Welcome of participants
Location: RMEI Office in Forte Michelangelo, Civitavecchia
20:00 Transfer to “Villa dei Principi”. Buffet and drinks.
21:00 Concert with Opera songs
22:30 Departure to Civitavecchia Hotel

Friday, April 13m 2012

8:30 Registration
8:50 Welcome addresses
Giovanni Moscherini, Mayor of Civitavecchia
Leo Vincent, President of RMEI
Fabrizio Vestroni, Dean of Engineering Faculty, Sapienza University of Rome
Armando Zambrano (CNI National Council of Engineers President), Nicola Munda (CNI)
Enzo Siviero, Ulvi Atan, Alessandro Stocco (IUA Venice, now in Istanbul)
Maria Maccarrone (IUAV Venice) Boats lifecycle and environment
10:30-11:00 Coffee Break
11:00 Workshop: Energy, a main Mediterranean challenge
11:30-12:00 Fabio Garzio, Tariq De Martino (Sapienza, University of Rome): Smart Grids and smart cities
12:00-12:40 Ferruccio Pitaluga (University of Genoa): State of Art in Italy
12:20-12:40 Mustapha El Adhani (ENSA Marrakesh), Nacer M’Sirrid (IUA Marrakesh): Art on Renewable Energies in Morocco
13:30-15:00 Buffet

Saturday, April 14m 2012

9:30-10:30 Invited Lectures
Franco Terlizzese (Ministry of Economic Development): Offshore Energy production: Mediterranean and Italian situation
Andrea Kettler (Assenmacher): Activities to support energy production: training centres
Alessandro Candela, Piergiorgio Soddu (DPC): DPR South Risk Atlas: Prevention, Preparedness and Response to Natural and Man-made Disasters Programme
Fabrizio Micari (Dean of Engineering Faculty, University of Palermo) and Students: Research Activities on Renewable Energies at the University of Palermo
10:30-11:00 Coffee Break
11:00-13:45 Workshop: The Youth and the future of the Mediterranean
Ramazan Dinc, Dermanli (ITU Istanbul): Intermodal Transportation in Turkey, Istanbul
Zerzour Mohamed Abdessalem (ENST Algiers): Transport in Algeria
Hanyim A. Y. Baslam (IUG Gaza): Water Crises in the World and Palestine
Salah Amine Selami (ENIT Tunisia): Ideas for building operational engineer profile
Pauline Sempere, Alexandre Besle (European Management Mariselle) and Sara Zakri (ENIM)

Crowded and full of energy, the 2nd Michelangelo Workshop of Civitavecchia brought together experts from various fields to discuss the challenges facing the Mediterranean through the youth. The program featured a range of lectures and workshops, including discussions on energy production, renewable energies, and research activities at universities. The event was hosted by various notable figures such as the Mayor of Civitavecchia, the President of RMEI, and the Dean of Sapienza University of Rome.
What is GAMe

GAMe is the acronym of Young Mediterranean Ambassadors.
It’s a project belonging to RMEI, the Network of Engineering and Management Schools.

GAMe association gathers together the young Mediterranean Engineers and Management students.
What is GAMe

GAMe is an international student network. It is the apolitical, laical, non-profitable student section of the RMEI universities. GAMe is the association of Mediterranean students belonging mainly to engineering schools whose members join on an exclusively voluntary basis.

Aim of GAMe

- GAMe aims to have engineering students from around the Mediterranean working and communicating together in preparation of an international career.
- GAMe wants to answer this point by giving students the opportunity to meet each other and to work together.
- The goal is to make them more familiar with other cultures and other way of thinking and to enrich their own through the experience they gain.
The final aim of GAMe is to reach a close cooperation and a continuous promotion of students initiatives among the Mediterranean Schools

- educational exchanging,
- continuity of participation,
- Interdisciplinarity,
- Intersectorality,
- internationality,
- promotion of mobility,
- development of skills and versatility,
- co-research studies,
- voluntary social and cultural network,
- mentoring and trainings activities,
- ...

The evolvement of students in networking for the Mediterranean

Research

To identify and promote research focussed on Sustainable Development:
- Energy
- Water
- Mediterranean Observatory
**Students**

- Quality
- Mobility
- Master course admissions
- New curricula, new approaches (e.g. Sustainable Development, Cindynics, Microelectronics, etc)

**GAMe for education**

GAMe aims to promote and develop students’ mobility, thus encouraging universities to develop their mobility programs and an exchange program, connecting people.
June, 2012: **GAMe project** presentation in Lyon, by Ecole Centrale Lyon team.

École Centrale Lyon transformed the GAMe project in a laboratory, in order to validate and support the development of the idea born in Civitavecchia, thanks to the initiative of RMEI Engineering Schools. Every year a group of engineering students is involved in this project, supporting the activities of the bureau.

Research

To identify and promote research focussed on Sustainable Development:
- Energy
- Water
- Mediterranean Observatory
GAMe’s international projects

The criteria that make a project more likely to be adopted by GAMe are:

- To develop mobility
- To develop multiculturalism
- To provide communication, co-operation and exchange possibilities
- To become more internationally minded by reaching a better understanding of Mediterranean cultures
- To develop the capacities to work on an international basis

Research

To identify and promote research focused on Sustainable Development: Energy Water Mediterranean Observatory
Project Acronym: HiT4Med

GAMe’s proposals

Michelangelo-Day Civ - Naples October 2017

WM-GAMe Journal Newsletter
What is GAMe about?

We can say it is about international workshops, providing opportunities for Mediterranean students to be able to meet and express themselves and learn about different cultures. Even though all of that is true, GAMe is really about progression.

Progress as an action is what GAMe strives for ever since it was created. Progress of Mediterranean peace and unity, progress of knowledge and exchange of knowledge, progress of problem analysis approaches. To name a few.

Ever since launching in 2011 with a board elected by students to maintain the ambitious student activity (created and maintained by students), GAMe has been molding itself and its goals into what is corresponding with the world. In 2017, the theme that has received our attention was mobility and transportation.

This theme could be taken as many ways: engineering and cultural are from the main...etc
COSTITUZIONE DEL COMITATO VOLONTARIO INSTITUTIVO DELL’ASSOCIAZIONE “WORKSHOP MICHELANGELO - GAMe”

PREMESSO:

A) che gli odierni comparenti hanno partecipato all’esperienza di creazione, gestione e sviluppo dell’iniziativa “Workshop Michelangelo”, consistente in un incontro di studio e scambio culturale tra gli studenti ed i docenti delle facoltà di ingegneria associate alla R.M.E.I. (Rete Mediterranea delle Facoltà di Ingegneria);

B) che in particolare il Prof. Guarascio ed il Prof. Vincent sono stati i fondatori dell’iniziativa del Workshop Michelangelo, e se ne sono resi garanti ed organizzatori. Nel corso della prima edizione del Workshop, nel Forte Michelangelo a Civitavecchia, gli studenti partecipanti, sollecitati dai fondatori, si sono costituiti in un comitato denominato...
